

King Estate Winery – Viticulture Internship

The internship will focus on viticultural data collection and sampling related activities. Students or graduates will work throughout the period leading up to the **2019 harvest (July – October)**. The internship requires a flexible schedule and access to a personal vehicle (with mileage reimbursements available). Additional details are outlined below:

Essential duties and responsibilities:

- Field data collection (cluster counts, weights, phenology, etc.)
- Pre-harvest fruit sampling
- Scouting for pests, disease

Job requirements:

- Qualified students will be enrolled in Horticulture, Agronomy, or similar program
- Strong written and verbal communication skills required
- Must be highly organized, detail oriented, and able to multi-task
- Basic computer skills in MS Office suite
- Requires work schedule flexibility, and ability to travel to multiple work sites
- Must be able to lift 50 lbs and travel in the field over rough and uneven ground in variable weather conditions
