

Alexana Estate Vineyards and Winery is seeking interns to join our winemaking team for the 2022 harvest. Alexana produces 15,000 cases annually at our estate in the picturesque Dundee Hills of Oregon. Interns will work in a high end newly built gravity flow winery which will process mostly Pinot Noir, but also Gamay Noir, Chardonnay, Pinot Gris, Riesling, and Gewurztraminer. Fruit is predominately from our Dundee Hills estate vineyard, but we source small amounts of fruit from every sub-AVA in the Willamette Valley.

This is a seasonal position that will start in late-August and last until early-November. Ideal candidates will be energetic, dependable, passionate about making world class wines, and will have worked at least one or more harvests; but those who have not worked a harvest are still encouraged to apply. We work hard to produce world class wines so we were very excited at the end of last year when Alexana was awarded the great honor of getting the highest-ranking Pinot Noir in the world when it got the #14 spot on Wine Spectator's Top 100 wines of 2021.

Job duties will include grape receiving, sorting, crushing, pressing, rackings, pomace-transfers, juice/must additions, inoculations, punchdowns, barrel prep/filling, winery sanitation, lab work, vineyard sampling, bottling, tasting/sensory, and other general winery operations. We are a small crew so everyone does everything from the grape to the bottle as a team.

Candidates must be flexible to work varying shifts, overtime, weekends, and must be able to lift and carry up to 50 lbs. repeatedly.

Qualified candidates are requested to submit a cover letter and resume.
