

Winery: Sokol Blosser  
Dayton, Oregon

Positions: 1, ideally 2 additional interns on the team for Harvest 2020.

Details: Looking for someone who is really interested in leading the daily fermentation management (Brix/Temp/pulling samples for outside lab analysis) and then move into cellar work as time allows for the day that would be great. However, we will take an intern that is interested in participating in any aspect of harvest. It would start at the end of August and depending on the year go until Halloween and we have housing included on the property.

To apply: Email Cellar Master Dylan, [dylan@sokolblosser.com](mailto:dylan@sokolblosser.com)
