Carlton, Oregon

Fantastic and immediate opportunity for a talented student to take my hobby vineyard from Bud Break to Bottling. I recently purchased this home in Carlton and I've never previously managed vines or produced wine. Help me learn. The previous owner made 80-100 bottles per year.

- 9 year old Pinot Noir vines
- 115, 667 and Pommard clones
- Help me learn to manage this from vine to wine
- You'll be in charge of everything including vine management, cluster management, organic spraying, fermenting and bottling.
- I will be available to assist you
- Compensation is negotiable.
